SUMMARY

Results-driven Full Stack Developer with 3+ years of experience engineering scalable web/mobile backends and secure financial systems. Expert in PHP (Laravel) and Python (Django) ecosystems, DevOps (CI/CD, server administration), and complex 3rd-party integrations. Adept at leading teams, designing project architecture, and driving technical strategy from conception to deployment.

TECHNICAL SKILLS

- **Languages & Frameworks:** PHP (Laravel, Zend, CodeIgniter), Python (Django Ninja, Celery), Node.js, JavaScript, HTML5/CSS3, Tailwind CSS
- **APIs & Integrations:** OAuth 2.0 (Google, Meta, Apple), Payment Gateways (Razorpay, Stripe), Cloud Comms (Twilio, Exotel, Telecmi), Google Maps/Roads API, Webhooks, JWT, SMTP
- **Databases & Caching:** MySQL, PostgreSQL, SQLite, Redis
- **Cloud, DevOps & Deployment:** GCP, CI/CD, GitHub Actions, Nginx, Unicorn, VPS, SSH, FTP, DNS (GoDaddy), SSL/TLS (Certbot), Linux Server Administration
- **Libraries & Tools:** Git, GitHub, Postman, MobaXterm, jQuery, Ajax, Material UI, Bootstrap
- **Concepts:** Full Stack Dev, RESTful APIs, MVC & MVT Architecture, UI/UX, Data Security (AES Encryption)

WORK EXPERIENCE

Software Engineer | Logiprompt Techno Solution Pvt Ltd, Trivandrum, Kerala | Aug 2025 - Present

- Led agile teams and architected multiple concurrent product and service-based applications.
- Engineered REST APIs and mobile backends, integrating AES encryption and 3rd-party APIs.
- Built UIs with Tailwind CSS and authored custom Composer packages for backend reusability.
- Automated multi-project workflows using CI/CD pipelines and managed Nginx/SSH deployments.

Junior Solution Developer | Techriish Solutions, Kakkanad | Jan 2025 - Jun 2025

- Built highly secure, optimized financial and banking applications.
- Integrated Stripe payments and complex Webhooks for real-time transaction tracking.
- Managed Agile lifecycles via Jira and scheduled background processes using Cron jobs.

Junior Software Engineer | DecaSync Innovations Pvt Ltd, Kochi | Nov 2024 - Jan 2025

- Developed Laravel REST APIs for React frontends, fully documented via Swagger.
- Integrated critical 3rd-party services, including SMS and payment gateways.

Full Stack Developer | UniCentSoft, Kollam | Jun 2023 - Oct 2024

- Developed Laravel REST APIs for React frontends, fully documented via Swagger.
- Developed scalable web applications using Core PHP and Zend Framework.
- Handled Linux server administration, continuous deployment, and GoDaddy DNS management.

WORK EXPERIENCE

- HRMS + ERP & Tracking System + GPS Tracking
- Education Institution Management System ERP
- Pharmaceutical Delivery Application
- CSC Karunagappally & Data Entry System
- Call Centre Application + CRM
- Hostels Booking Portal
- Devotional Hotels Booking Portal

EDUCATION

B.Voc in Software Development | KSMD College Sasthamcotta, Kerala University | 2023 Diploma in Computer Application (DCA) | Keltron

SOFT SKILLS

Problem Solving, Team Leadership, Adaptability, Analytical Skills, Attention to Detail, Time Management
